

PIXELRUSH

OFFICIAL HACKATHON TIMELINE

 **05 - 06 OCTOBER 2026**

START

9:00 AM

FORMAT

Figma + Web

ROUNDS

3

What This Document Covers

PixelRush begins at 9:00 AM on 5 October 2026 and runs through 6 October 2026. This document gives participants the full sequence for login, problem-statement release, Figma rounds, the HTML/CSS development window, final evaluation, and submission.

09:00 AM	Hackathon Kickoff + Team Leader Login + Team Creation
-----------------	---

10:00 AM	Problem Statement Release
-----------------	---------------------------

12:45 PM	Round 1 — Figma Review
-----------------	------------------------

03:45 PM	Round 2 — Figma Review
-----------------	------------------------

04:00 PM	Start Developing the Prototype in HTML/CSS
-----------------	--

10:00 AM, 6 Oct	Round 3 — Final Evaluation
------------------------	----------------------------

12:00 PM, 6 Oct	Final Submission
------------------------	------------------

IMPORTANT: Round 1 and Round 2 are strictly Figma-only. Teams may start building the HTML/CSS website only after Round 2 is completed, and development continues without interruption until Round 3.

Official Hackathon Timeline

Problem statements are released on the hackathon day. Each team must choose one problem statement and begin working on its solution from the release time. Development continues without a break through the night until Round 3.

TIME	ACTIVITY	TEAM ACTION
09:00 AM 5 Oct	Hackathon Kickoff	Team Leader logs in to the official PixelRush portal, creates the team, and adds members.
10:00 AM 5 Oct	Problem Statement Release	The organisers release the problem statements. Each team selects any ONE problem statement.
10:00 AM onward	Work Begins	Understand the selected problem, define the idea, assign team responsibilities, and begin the Figma solution.
12:45 PM 5 Oct	Round 1 — Figma	Mentors check the selected problem statement, roles, idea, Figma progress, and provide suggestions.
03:45 PM 5 Oct	Round 2 — Figma	Mentors review the next stage of Figma progress, ask questions, and provide suggestions.
04:00 PM 5 Oct	HTML/CSS Development Begins	Teams start converting the Figma concept into a working HTML/CSS prototype. Development continues through the night without interruption.
10:00 AM 6 Oct	Round 3 — Final Evaluation	Final evaluation of the complete project against the selected problem statement, including relevance, completeness, design, implementation, and execution.
12:00 PM 6 Oct	Final Submission	Teams submit the GitHub repository, Figma link, deployed website link, and project video. Hackathon concludes.

Execution Phases

Three execution phases structure the build window, from design through to final submission.

PHASE 01

Figma Design Phase

10:00 AM – 03:45 PM, 5 Oct

Problem selection, idea formation, role allocation, user flow, wireframes, and UI design. No HTML/CSS website development during Round 1 and Round 2.

PHASE 02

Website Development Phase

04:00 PM, 5 Oct – 10:00 AM, 6 Oct

Teams convert the Figma design into a working HTML/CSS prototype and continue implementation, refinement, and testing right through the night up to Round 3.

PHASE 03

Final Evaluation & Submission

10:00 AM – 12:00 PM, 6 Oct

Round 3 evaluates the complete solution for relevance, completeness, design, implementation, and execution, followed by final submission at 12:00 PM.

Participant Rules — Part 1

01

Team Leader Access

The team leader must log in to the PixelRush portal at 9:00 AM on 5 October and create the team.

02

One Problem Statement

Each team selects exactly one problem statement after the 10:00 AM release.

03

Figma-Only Rounds

Round 1 (12:45 PM) and Round 2 (3:45 PM) must be completed using Figma. Do not build the HTML/CSS website during these rounds.

04

Development Window

HTML/CSS development begins at 4:00 PM on 5 October and continues without interruption until Round 3 begins at 10:00 AM on 6 October.

Participant Rules — Part 2

05

Round 3 Readiness

The complete project must be ready for Round 3 beginning at 10:00 AM on 6 October.

06

Final Submission Deadline

All four required submission items must be submitted to the portal by 12:00 PM on 6 October.

07

Committee Verification

Results and submissions are reviewed and verified by the Hackathon Committee.

Complete Event Flow

01	Hackathon Kickoff + Team Leader Login	9:00 AM, 5 Oct
02	Problem Statement Release	10:00 AM, 5 Oct
03	Round 1 — Figma	12:45 PM, 5 Oct
04	Round 2 — Figma	3:45 PM, 5 Oct
05	HTML/CSS Development Begins	4:00 PM, 5 Oct
06	Round 3 — Final Evaluation	10:00 AM, 6 Oct
07	Final Submission	12:00 PM, 6 Oct

For questions or clarifications regarding the schedule, portal, rounds, or rules, contact the Hackathon Committee.

Team Login & Team Creation

This process must be followed before the team can participate. Mandatory login sequence: only the Team Leader should log in first. After the Team Leader successfully logs in, the Team Leader must create the team and add the remaining team members through the PixelRush portal.

01**Team Leader Logs In**

At 9:00 AM on 5 October 2026, only the designated Team Leader logs in to the PixelRush portal.

02**Create the Team**

After a successful login, the Team Leader creates the team in the portal.

03**Add Team Members**

The Team Leader then adds all other team members to the team through the portal.

04**Members Join the Team**

Team members participate only after they have been added by the Team Leader. They must not create a separate team.

STRICTLY PROHIBITED

No other team member should log in first. No team member other than the Team Leader should create a team. Only one team should be created per participating team.

What We Need From Your Team

All four items below are mandatory at the final submission stage, due by **12:00 PM on 6 October**, immediately after Round 3. Submit everything to the PixelRush portal.

01**GitHub Repository**

Submit the GitHub repository URL containing the complete project source code and related files.

02**Figma Link**

Submit the Figma project URL showing the design created during the Figma phase.

03**Deployed Website Link**

Submit the public deployed website URL so the final project can be opened and reviewed online.

04**Project Video**

Submit a public Google Drive URL to the saved project video. The video must be accessible for viewing.

Submission Must Be Completed Correctly — Every Team Must:

- Submit all four required items together to the portal, by 12:00 PM on 6 October.
- Verify that every link is correct, working, and accessible to the Hackathon Committee and judges.
- Use a public/viewable Google Drive permission for the project video.
- Ensure the deployed website is live and accessible for review.

DISQUALIFICATION WARNING

The final submission must be completed correctly and must follow all submission requirements. If your team fails to submit any required item, submits incorrect or inaccessible links, or does not follow the final submission requirements, the team may be disqualified. The Hackathon Committee's decision regarding disqualification will be final.

Every Participant Gets Recognised

Participation is recognised. Achievement is celebrated.

01

PARTICIPATION CERTIFICATE

Every participating student will receive a Participation Certificate in recognition of their participation and contribution to PixelRush.

02

WINNER CERTIFICATE + GOODIES

The final winning team will receive a Winner Certificate along with special goodies as recognition of their achievement.

QUESTIONS, CLARIFICATIONS OR SUPPORT

For any queries regarding the schedule, portal, team creation, problem statements, rounds, final submission, or certificates, please contact the Hackathon Committee.
